## PRESS RELEASE DINOSAUR DESIGNS - ABSTRACT

**November 10, 2011** - Louise Olsen and Stephen Ormandy of Dinosaur Designs have created a new collection of jewelry and housewares inspired by the 20th century Abstract art movement.

Having tapped in to this rich seam and its play on color, shape, form and collage, the collection includes 49 new styles of handmade jewelry, including 12 bold new earring styles. There are also 10 new housewares styles. Handblown glass objects in complementary colors round out the collection.

Dinosaur Designs has been at the creative forefront of design and fashion for the past 25 years. Under the creative direction of Louise Olsen & Stephen Ormandy, Dinosaur Designs produces two new collections of jewelry and

housewares each year to accentuate a constantly evolving collection of classic items. Dinosaur Designs pieces are hand made and finished in our Sydney studio giving each piece that unique feel for which Dinosaur Designs has become known.

Dinosaur Designs is available online on Facebook, Twitter and at [www.dinosaurdesigns.com.au](http://www.dinosaurdesigns.com.au)
